

## Lightweight Pendant

The Lightweight Pendant is precision engineered in aluminium with an anodised finish. Designed for residential and commercial applications, the light weighs less than 750 grams. The pendant uses constant current LED's which offer a 50,000 hour lifespan. Warm white in colour, the LED's are dimmable with standard dimming controls. Please refer to the samples on page 46 for the available finishes.

350mA 6 x 1.2w LED
